Thirty Shares of Union Traction Pre-

ferred Stock Sold at 85.

At yesterday's session of the Indianapolis Stock Exchange considerable interest was shown in Union Traction securities and thirty shares of

higher than on Wednesday. There were no sales

of common stock, but an advance of 11/2 points

was bid. Long-distance Telephone and Indiana Guaranty and Loan Company each went up a

point on bidding. Bank and trust companies

ranged lower on bidding, with no sales. Official

Day of Disquieting Rumors, but the

Market Holds Very Well.

[Meyer & Kiser's Telegram.]

NEW YORK, June 4.-The market was one of disquieting rumors. The severe

break in Copper caused considerable sell-

rumors of troubles in that city. These

somewhere. The weakness in Pennsylvania

last half hour great pressure was brought

ng that it did not yield. Outside of Cop-

per and Pennsylvania the market seemed

to be sold to a standstill. The rise in grain, which apparently confirmed the crop damage reports, also caused some

LOCAL WHOLESALE TRADE

RAINY WEATHER OPERATES AS CHECK IN LEADING LINES.

Volume Is, Nevertheless, in Advance of That of Last Year-Good Demand for All Grain Arrivals.

There is little new to note in the local narket. The heavy rains of the past week have curtailed trade somewhat, but still the volume is in excess of that of early June of last year. Especially is this true of the dry goods houses. The wholesale grocers also report business good. Coffees are steady and unchanged. No difference is made in price for refined sugar, but there is an active request and an early advance would not be a surprise. Navy beans are a little easier in primary markets, but are unchanged here.

Oak sole, 22@42c; hemlock sole, 25@38c; harness, 35@45c; skirting, 28@46c; single strap, 41@45c; city kip, 60@80c; French kip, 99e@\$1 20; c'ty caif-skin, 90c@\$1; French calfskin, \$1.20@1.85. Canned tomatoes and peas are held at highor figures by packers, but are unchanged here. Dried fruits are moving slowly. In fancy groceries there is slight strengthening in prices, especially of raisins and grunes. On Commission row trade is good. Old potatoes are easier and sell somewhat lower. Receipts of new potatoes are increasing, but so is the demand, and quotations are well held. Hothouse cucumbers are lower, with home grown now coming on the market. New beets are offered and command higher prices than old. Florida celery in abundant supply and steadily declining in price. String and wax beans are plentiful and weaker, some inferior stock being offered at very low prices. Florida tomatoes
are in better supply and prices are easing
off. Lemons, with the increased demand,
are firmer. Bananas are scarce and strong
at prices quoted. The produce market is at prices quoted. The produce market is sirly active. Butter remains unchanged. with no indications of lower prices in the sear future for the better grades. Cheese is plentiful and the output is larger | \$2.75; han at the corresponding period of last ear. Fresh eggs are holding their own. sses to dealers are heavy on account of warm weather last week, but the effort advance prices failed. Poultry supplies imited and prices are firm. Dealers do look for any change before next month. eather is active and prices are firm but d. Hides move along much in the of some days past, but prices are firm the recent revision. Iron and steel hants continue to do a big business. former year have they enjoyed so ex-

AMALGAMATED COPPER AT THE LOWEST POINT IN ITS HISTORY.

ord for the Movement-Sharp Flurry in Call Loan Rates.

NEW YORK, June 4.-Yesterday's late reaction was taken as a demonstration of the futility of the effort made earlier in the day to put prices up and professional operators this morning proceeded to throw over such holdings as they had taken on with expectation of an upward turn of prices. There was not much in the news of the day having a bearing on values. The weakness of the market increased as the day progressed, and before the close took on the appearance of forced liquidation, which was in evidence earlier in the week. A number of the Canadian stocks showed a tendency to recover from the extreme depressions caused by the Canadian financial difficulties on Tuesday, but there was some apprehension that after effects of those tronubles were to be feared at other points.

The greatest selling pressure to-day converged on Amalgamated Copper, of which thousands of shares were thrown on the market, with seeming disregard of what prices they would bring. The stock touched 52 shortly before the close, an extreme decline of five points for the day and 11/2 points lower than ever before in the history of the company. The urgency of the selling, without news affecting the property, gave rise to disquieting rumors as to the necessity which could induce such heavy liquidation. Much of the selling was said to be for Boston account and rumors were circulated of a process of loan contraction at that center following the collapse in Canadian securities. American Smelting also showed evidence of special pressure. The personality of the brokers employed in this selling caused the movement to be associated with the pool which is understood to have operated both in Amalgamated and

Another influential factor in causing discouragement was the free selling of Penn-sylvania through the day. This stock touched 123%, a decline on the day of 1% and 1% below the previous low record on the movement. This compared badly with subscription price to stockholders, which has also been underwritten by a syndicate at 130. The liquidation of this stock caused a bad impression on sentiment market to 41/2 late in the day was evidence that there was urgent requirements to be dence of support for the United States Steel stocks, large orders being executed by houses formerly acting for the steel syndi cate. But the reports from the iron trade had some influence in depressing stocks generally. The reports that the steel market is growing easier were received with anxiety. The calling of a convention of anthracite miners to consider a strike was naturally depressing. The strength of the grain market, an unfavorable report from the Missouri Agricultural Department, and reported by the government were effective influences in the day's weakness. The dis-turbance in the call loan market was considered as foreshadowing a poor bank re-turn on Saturday. The market closed weak and active and practically at the lowest. Bonds were irregular. Total sales at par value were \$2,195,000. United States bonds were all unchaged on the last call.

Following are the day's share sales and

BAD CROP REPORTS AND DAMAGE NEWS CAUSE A BIG DEMAND.

1 1-Se in Corn and Wheat-Provisions Are a Little Lower.

CHICAGO, June 4.-Bullish flood news caused renewed strength in the grain pits to-day, July wheat closing 11/3c higher, corn 1@1%c higher and oats up %c. Provisions closed steady, unchanged to 5@74c lower. Wheat ruled strong and trading was active, with a large volume of business. The market was strong throughout the session, opening prices being higher on steady cables, small receipts and threatening weather. July was up 1/3c to 1/4@1/3c, at 75c to 75\%@75\4c, and after selling at 74\%@75c, soon after the opening, prices steadily advanced. The exciting causes were the strength of St. Louis and the extremely bullish character of the Missouri crop report, which showed a loss of 17 per cent. in the condition of the crop during the past month. Damage reports from Kansas and Nebraska were also in evidence and helped in creating anxiety among shorts, while strength in corn was another bull factor. There was a good general demand all day, with light offerings. St. Louis continued to advance during the last hour and the price here rose in sympathy, closing prices being near the top. After selling at 76%c July closed at 76c, a net gain of 11/2c. Clearances of wheat and flour were equal to 133,000 bu. Primary receipts were 299,000 bu, compared with 388,000 bu a year ago. Minneapolis and Duluth reported receipts of 179 cars, which, with local receipts of nineteen cars-none of contract grade-made a total of 198 cars, against 166 last week and 296 a year ago.

Leading futures ranged as follows: High-Articles. Open-Low-76% -761/2 75% 74%-75 74%-74% June... July... Sept... Dec....

Hogs-Receipts, 8,000; shipments, 2,000. The receipts to-day were nearly 1,500 larger than a week ago and about 2,000 larger than a year ago. The quality generally was equal to the average represented heretofore this week, and some of the hogs were possibly better than any here yesterday. The market opened with all regular from both packers and shippers the trading at the start was active, and the best light and heavy hogs were bringing steady prices compared with yesterday. In fact, the general market at the start was reported much the same as yesterday, but occasional sales of mixed hogs looked to be 5c lower. When most of the early arrivals had been sold it developed that the shipping demand had been very well supplied, and with unfavorable reports from other places local packers were bidding lower prices. Because salesmen had succeeded in getting steady prices were lower, they ewre inclined to consider the late bids favorable, and finally about the usual clearance was made with many of the last transactions showing a decline of 5c in prices com-pared with yesterday. The conditions at the close of the market favored lower prices for the near future. Sales to-day ranged from \$5.80 to \$6.35, and the bulk of the supply sold at \$6@6.25. in the State. Sing Sing as a Health Resort.

New York World. The doctors at Sing Sing have prescribed the work cure for Al Adams "to transform his flabby flesh, which was induced by high living and indolence, into healthy muscle The beauty of this prescription is that it can be enforced. There are a good many men who need the same treatment, but is their cases the doctors can only recommend. When orders are issued for Adams to work he has to do it.

It might be a good idea for some of our other wealthy citizens who have worked a "get-rich-quick" scheme, and whose lux-urious lives are making them prematurely old and flabby, but who have not will power enough to give themselves the treatm they need, to serve a few years at Sing Sing for the sake of its hygienic discipline. By their financial operations some of them have already acquired the necessary quali-
